

Kelly's COINS and CHATTER

JAMES KELLY

3rd and Broadway
DAYTON 7, OHIO

MEET MY BABY

This is the first and a trial issue of COINS AND CHATTER. It is to be a bi-monthly publication starting with the September 1st issue. It's purpose is to bring you news and information on Numismatics, as well as coins sensibly priced and honestly graded.

I will endeavor to cover the entire Numismatic field, both with offerings and information. There will be a QUESTION AND ANSWER DEPARTMENT where you may come for information. Articles on famous collections and collectors, past and present. New issues and current events will be discussed.

COINS AND CHATTER, issued twice-monthly, will enable me to offer you merchandise as soon as it comes in. Ever since I started in business I have been trying to find a satisfactory method of presenting material to the collector so that disappointments will be at a minimum. Ads in magazines are always thirty to sixty days old. Price Lists, when printed, require three to six weeks to put it out so you can readily understand why so many items you write for have been sold.

COINS AND CHATTER will be photographed and printed on an offset press requiring but three days time. I have now set up an addressograph system so that my entire mailing list can be addressed in half a day. Mailing will be by zone so that every one will receive their copy at the same time. This adds up to the fact that I can present material to the collector within a week from the time lists are prepared and give everyone an equal chance.

This and other trial issues will be mailed to my entire mailing list but starting with the regular September issue. It will only be sent to my active list.

1864 3¢ Silver
Only 470 Coined .. Br.Proof \$42.50

There is a very interesting story connected with the dozen or so of the above coins that I recently purchased. When the estate of William H. Wooding (former Secretary of the Treasury) was sold, there was a safe that was closed and the combination lost. It was sold as is and when opened was chuck-full of coins and patterns. A small lot of these 1864 3¢ Silver were among the contents. They were held intact for many years until purchased by me last November.

In 1941 the Proof Half Dollars were coined with and without the designer's initial "W" (Weinman). There is some question as to which is the scarcer. I offer the pair, with and without initial, at a special price:

QUESTION AND ANSWER DEPARTMENT

Q. Are the 1937 Cents and Nickels with milled edge, patterns or freaks, or were they even struck at the Mint?

A. The milled or reeded edge was definitely put on after the coin was struck. If at the Mint - and a big "If" - it was done without the knowledge or consent of those in authority.
* * *

Q. When were Proof coins first struck and why does the Standard Catalogue state that "Proof coins were first struck at the Mint for collectors in 1858?"

A. Proof or "specimen" coins have been coined from the very beginning of the Mints operation in 1792. These were mostly struck for European collectors. I use the word "specimen" as these early coins were struck under difficult conditions and are not proofs as we know them today. After 1820 very acceptable proofs were struck. I have seen circulars issued by the Mint advertising proofs as far back as 1834.

Mr. Raymond will have to answer the second part of your question. This catalogue lists 1831 Proof Half Cent. ???
* * *

Q. What does the word "Vigo" mean on the Crown of Anne?

A. The word "Vigo" appears under the bust on certain coins of Queen Anne of England. It is placed there to commemorate the capture, in October 1702, by Sir George Rooke, of the Spanish Galleons at Vigo from which the bullion was taken and from which these coins were struck. Vigo is a town in Spain on the Bay of Vigo.
